

Wentworth's School of Professional Development

On-line Learning Management System Launched for Wentworth Associates

Wentworth has always been committed to providing education and leadership programs to our associates, recognizing that they are truly the foundation of our success.

As such, our clients appreciate how motivated our associates are, and that they represent the highest levels of professionalism and skill the industry has to offer.

In January 2008, Wentworth proudly launched an on-line learning management system (LMS), their **School of Professional Development**.

The School of Professional Development provides an array of educational content, resources, assessments and live, instructor-led webinars. Associates are able to learn at their own pace, track their progress and take advantage of an on-line reference library.

In addition to a core curriculum, career development paths are offered to provide a step-by-step approach to career advancement. The content of each career development path will be customized to meet the requirements of a particular specialty within the real estate management and services industry.

Wentworth's School of Professional Development offers:

- Interactivity
- Visual & Verbal Courses
- Flexibility & Customization
- Valuable Resource Library
- Skill Enhancement
- Career Advancement
